A championship golf course by Huxham Golf Design Inc., an international golf design firm with over 30 years of experience and completion of more than 40 golf courses worldwide, has designed Dover Coast's Championship golf course in beautiful lakeside Port Dover. It will be visually appealing and a joy to play.

Huxham designs golf courses with one thing in mind - 'The Player'. They want you to be enthusiastic about your next shot and remember all the holes and the shots you've played in a round. Huxham creates layouts that appear difficult but play friendly. Most of all they want you to enjoy your round because it was stimulating, challenging and memorable and, that you'll want to come back... after all, it's right in your own backyard at Dover Coast Homes.

Dover Coast is building 12 single detached Cape Cod style homes on this beautiful golf course and six of them are already sold. They've just released another 10 backing on to the 16th hole with a gorgeous view of the ponds. It's a golfer's dream home.

Golf course architects Darrell and Warren Huxham have received numerous awards and

testimonials throughout the years so when John Lennox started his Dover Coast Adult Lifestyle Community which surrounds his Championship golf course there was no question "it had to be a Huxham design," says Lennox.

Huxham has designed and managed the construction of The Right Honourable Paul Martin's golf course in Quebec who reports; "...the course exceeded my expectations from all perspectives."

Andre Raymond, Vice-President and General Manager of La Tempete says, "It is a very impressive and challenging course, as can be attested by our hosting of the Telus World Skins Game in 2009." Clublink Corporation with premium golf clubs across the country have had many of their courses designed by Huxham and continue to work with them today.

Golf Digest magazine, the golfer's bible, awarded Huxham's designs over and over again: Loch Ness Links, the best public course in the Niagara Region in 2001. Fox Harb'r Golf Resort along the spectacular rugged sea coast of the Northumberland Strait was voted best new Canadian Course in 2001. (Co-design and construction supervision while associated with G.C.A) Le Maitre de Mont-Tremblant was the best new eastern course in Canada in 2002. The Lynx at Kingswood Park in New Brunswick was best new Canadian Course in 2003.

Flagstick Golf Magazine featured the triumphant return of the Champions Tour 2010 back to Canada after an eight year absence. The Montreal Championship was held for the second consecutive year at Club de Golf Le Fontainebleau in Blainville, Qc, another quality design by Huxham Golf Design. As well, HGD's newest creation, eQuinelle Golf Club in Kemptonville, Ontario, was chosen as the number one Best Golf Course in Eastern Ontario by Flagstick's Readers Choice Awards in 2010.

When Darrell and Warren Huxham came out to Dover Coast in Port Dover and saw the property with its close proximity to Lake Erie and that the course would be a part of an adult lifestyle community they fell in love with the project.

"We knew immediately it had great potential and we wanted to be involved. It's going to be a great course," reports Huxham.

Dover Coast is an Adult Lifestyle Community on the north shore of Lake Erie in Port Dover, Ontario. In addition to this state of the art golf course, there is a relaxed dining restaurant, Davids of Dover Coast, and Elements Day Spa, both overlooking the lake with stunning views. A recreation centre is also planned with an indoor/outdoor pool.

Make every day feel like the weekend and call the Dover Coast sales office at 519-583-2049 from Thursday to Sunday 12 pm - 5 pm. Prices start at just \$239,900.
